

Concierge Service

With the high cost of health care and the economy putting a burden on everyone's cost-of-living expenses we offer a new concierge podiatry service for our patients.

Don't let high deductibles and out-of-pocket insurance plans stop you from relieving your foot pain. Foot pain is not normal and we can help.

We have 2 programs to choose from:

Direct Visit Patient Pay

Don't wait to have your foot condition diagnosed because of your insurance plan's high deductible or out-of-pocket which makes it impossible for you to pay for your medical care. With this option you still get the same level of care as you have always come to expect from the Step Alive Foot & Ankle Center except with discounted rates. Without billing your insurance we will discount all your office visits and treatments (including x-rays, orthotics, braces, and diabetic shoes) to Medicare rates. A great savings from your current insurance allowables!

To take advantage of this option just ask to be put on Direct Pay when you make your appointment. We accept all major credit cards except American Express. We do charge a 4% surcharge for credit cards.

VIP Yearly Membership

This option increases your benefits by having access to 4 examinations throughout the calendar year at no-charge (excluding x-rays or treatment). You also get immediate access to our doctor with same day appointments or Tele-visits/Phone visits which can be especially beneficial during emergencies. Finally receive a 10% discount on in-office products and physician only formulas. All this for only \$350.00 per calendar year!
